

Request for Expeditious Grant of Request for Special Temporary Authority

The National Association of Broadcasters (NAB) hereby respectfully requests expeditious grant of NAB's application for special temporary authority, to which this request is attached.

NAB states that the instant application for special temporary authority must be granted expeditiously because the broadcast demonstration for which an STA is needed is to occur March 16 – 21, 2007 at a limited-access industry forum. NAB only recently obtained the technical details of the technology to be demonstrated (and necessary to the completion of the instant application). The broadcast of such proprietary technology is central to the demonstration. Such demonstration will show broadcasters the potential of newly-emerging technology for advanced digital services.
