Carl,

Thank you for your response to my question and correcting my mistake.

Have a good one.

The application has been granted. Therefore, application cannot be amended.  
Authorization must be modified (if change is minor, as is the case here, ELB can make change and issue supersede authorization). Your e-mail will suffice as request for change, which will take place on Tuesday Jan 7.

Hello FCC,

*"minor mod"*

I made a mistake on the end date on the STA WB9XOU, File Number 0455-EX-ST-2002. The Superbowl is actually on 1/26/03 and I'd like to have the STA expire on 1/27/03 instead of 1/21/03  
Can you please tell me how I may amend my request to fix my mistake?  
When I tried to modify the application, the system asks for a confirmation number. I have tried every number that appears on the Form 159 I have and the system will not allow me to amend my request. Am I doing something wrong?

Thanks in advance for your time and help.
