

ThinSat-2 NTIA Space record data form

NTIA requires the following data for space related experiments using government shared spectrum. For each transmit frequency, please provide the data for both ends of the transmit-receive link. Use Part A to describe the satellite to ground (or to other satellite) information. Part B is for all ground to space transmit links.

**Part A: Space to Earth Space Downlink Data (From THINSAT-2 to the Globalstar Constellation)**
