

Per the **WIRELESS TELECOMMUNICATIONS BUREAU FEE FILING GUIDE EFFECTIVE September 26, 2016**, there are no application fees for any type of application or request regarding Local Multipoint Distribution Service (LMDS). For this reason, we should be considered fee exempt. Below is the relevant passage from the fee filing guide in which this fee exemption is stated.

"Note that **there are no application fees for any type of application or request regarding the** Advanced Wireless Services (AWS), Personal Communications Service (PCS), the Wireless Communications Service (WCS) (2305 – 2320 MHz and 2345 – 2360 MHz), **Local Multipoint Distribution Service (LMDS)**, Location and Monitoring Service, Multilateration (LMS), 1670 – 1675 MHz Band (Part 27), or 700 MHz (Lower Band, Upper Band, including Guard Bands), Multichannel Video Distribution and Data Service (MVDDS). Regulatory fees, which are assessed annually, may apply to these services. Refer to Pages 6 through 8 of this guide for information on regulatory fees for these services."
