Message:

Dear Mr. Stan Sell and Ms. Claudia Cheek:

In reference to the requested mobile 1000 watts on 1920-1990 MHz, can a lower power be requested? Also, can you confirm that mobile in this sense means transmitting at temporarily fixed locations within the area requested as opposed to transmitting while the transmitter is in motion?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 06, 2005 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
