Dear Mr. Rydberg:

In response to your request, the state of Illinois hereby provides this letter of concurrence in support of Nokia Siemens' application for extension of the experimental STA to operate in the 700MHz public broadband block for testing of LTE broadband equipment in the Arlington Heights/Palatine area of northeastern Illinois for continued solution development. This concurrence is granted with the understanding that Nokia Siemens continues to perform the testing in accordance within the parameters identified in the State's original correspondence of June 2, 2011.

This concurrence will now expire on December 31, 2013. Please do not hesitate to contact me at 217/524-3544 should you have any questions or concerns.

Respectfully
