Subject: Additional Information Request

Message:

Nimesh,

You asked that Nokia of America Corporation (Nokia) notify OET when all other bureaus involved in this transaction have consented to the license assignments. The only other bureau involved in this transaction is the Wireless Telecommunications Bureau (WTB). On September 23, 2021, the WTB consented to the lead application involved in this transaction (ULS File No. 0009669298). A related application (ULS File No. 0009669309) remains pending before the WTB, though we expect to receive consent shortly. Nokia will provide an update when the remaining application has been consented to. Please let us know if you have any other questions or require additional information.

Thanks,
Meredith Singer
Counsel to Nokia
