

Attachment 1

Question 7: Purpose of Experiment

A station authorization for experimental radio service is needed in order to conduct performance and testing on a variety of mobile terminals in a product development environment. These tests will include, but not be limited to, new software release testing, cell coverage enhancement testing, and integration testing with other vendor equipment. These test will enable Nokia to continue to make advances in the PCS field that will benefit Nokia, the service providers, and ultimately the public.
