

Fee Exempt Explanation

Since this work is performed at a public university, we have been informed that we are exempt from a license fee. In addition, the purpose of this license is to perform work on a government program with project number DAAD19-02-1-0153, titled "Remote Characterization of Electric and Electronic Devices," managed by the Army Research Office in Durham, North Carolina. The program manager is Dev Palmer and he can be reached at (919)423-3370.
