RE: Amendment / Modification of File Number: 0337-EX-CN-2021

This application is identical to our previous authorization (File No. 0499-EX-CN-2019, Expiring 8-1-2021) but adds one low-elevation fixed site with associated mobiles (however we may have forgotten to file for mobiles so please look for an amendment). New mobile will have a 10 km radius of operation around this new site with parameters identical to the other previous mobiles.
