Subject: Additional Information Request

---

Message:

Question 1) I removed the four locations from 0337-EX-CN-2021 that are already licensed under FLN 0499-EX-CN-2019. If you want to continue to perform your experiment at those 4 locations then file for a renewal for the Call Sign WK2XIK FLN 0499-EX-CN-2019 before the expiration date. You will need to pay the fees for that application if you decide to file a renewal

Response: We will file for stand-alone renewal FLN 0499-EX-CN-2019 as we plan to continue these four sites.

Question 2) For our purpose, this is a new stand-alone application. Therefore you need to submit an exhibit that clearly describes your experimental license request. Review your technical parameters and the geographical coordinates. You have paid the fees for this application.

Response: This was an oversight. We will file this.
