

EXHIBIT 1  
FCC FORM 442  
ITEM 5c

Northrop Grumman desires to operate the equipment within a 10 km radius of the following NAD-83 coordinates:

Linthicum (Anne Arundel), MD	39-11-08N	76-41-12W
Sykesville (Carroll), MD	39-22-29N	76-57-39W
Rolling Meadows (Cook), IL	42-06-02N	88-01-56W

EXHIBIT 2  
FCC FORM 442  
ITEM 10

Northrop Grumman Corporation has designed, and desires to test, a new tactical wireless vehicular intercom system intended to be integrated into standard existing communications systems. This system will have the ability to function alongside current hard-wired intercoms or independently if required. Military personnel functioning as crew members of combat vehicles will be able to exit the vehicle if necessary and maintain contact with team members. Northrop Grumman wishes to conduct tests of the system to determine coverage limits, vulnerability to interference, observability, and measurements as necessary to determine compliance with Part 15 of the Rules.
