Nimesh,

What is an ELS response? I believe you meant to contact the installers – KonectaGPS who submitted the FCC license, I've cc'd Kirk Stremke for reference, he is the KonectaGPS GPS License Specialist.

I can assure you that our site is fully functional, we have (at the location indicated) a 34k sq foot office and a 34k sq foot hangar. The picture you show does not include our buildings or General Atomics, which leads me to believe it's from before 2015

I've attached a photo of our facility taken from Highway 2 and a copy of our current visitors guide.
<https://grandforks.org/northrop-grumman-grand-forks-workforce/>

You can also google NGC at Grand Sky and you will see many more images of the site.

Please let me know if there are any other concerns.

You have agreed to the NTIA requirement that states the authorization is for indoor use only.

The Lat/Long 47 56 7 N 97 24 30 W that you provided plots to an open field. There is no aircraft hangar anywhere in the picture. Please address this issue and formally respond via ELS.
