

Request for Modification

Northrop Grumman Systems Corporation (NGSC), requests modification of experimental license WL2XJC to conduct tests in a geographic area extended from that in the existing license. All technical parameters will remain the same except the geographic area of flight, which is described below.

NGSC requests that in addition to the current authorization, that the overflight area be extended to include areas around Eglin Air Force Base, (Okaloosa County) Florida, and Redstone Arsenal, Huntsville (Madison County), Alabama; and to include the flight path for transit between those two areas and Linthicum, Maryland and Georgetown, Delaware. In all instances the maximum altitude will be 41,000 feet above MSL. To define this area, two boxes with corner coordinates are described below, and a map depicting the area is reproduced below the coordinates.

Two boxes mapped with corner coordinates:

Around Redstone and Eglin:
28-44-00 N; 88-47-00 W
28-54-00 N; 84-44-00 W
36-14-00 N; 84-29-00 W
36-14-00 N; 88-23-00 W

Transit to this area from BWI:
39-13-00 N; 76-14-00 W
39-23-00 N; 76-57-00 W
36-14-00 N; 84-45-00 W
32-32-00 N; 84-45-00 W
