

Application For Experimental License, Question 7 Response

This application by Northrop Grumman Systems Corporation (NGSC) is to permit development and testing of Northrop Grumman flight test equipment using the standard coordinated flight test frequencies 2360-2395 MHz. The transmitter output is 20 watts into an omni-directional vertical antenna in 5 MHz channels (emission designator 5M00W9D). NGSC Stop Buzzer is Daniel Robinson, 661-272-7033; Daniel.Robinson2@ngc.com.
