Subject: File Num#1165-EX-ST-2020 reminder on FAA pre-coordination data request

---

Message:

Northrop Grumman is unable to coordinate 960 &ndash; 975 MHz with the FAA. Entering these frequencies into the FAA electronic application for coordination (WebFCR) results in a message stating that the frequencies are &ldquo;Outside FAA coordination&rdquo;. A screen grab of WebFCR with this result is filed as an additional exhibit.
