Re: O3b Limited
OET File No. 0005-EX-TU-2016
Call Sign: WH2XRC

This document notifies the Office of Engineering and Technology (“OET”) that O3b Limited (“O3b”) will begin operating a fixed earth station terminal in Miramar, Florida on February 7, 2017. The terminal will transmit and receive signals to and from the O3b satellite system pursuant to O3b’s grant issued by OET under the above referenced file number and call sign.

O3b will operate an Orbit AL-7103-Ka 2.2 meter terminal (“Orbit 2.2m Terminal”) at the below coordinates:

25°59'18.6"N 80°20'29.0"W

The OET grant authorizes O3b to operate up to 10 Orbit 2.2 meter terminals in the CONUS, Hawaii, Puerto Rico, and the U.S. Virgin Islands and to transmit in the 27.6-28.4 and 28.6-29.1 GHz bands and to receive in the 17.8-18.6 and 18.8-19.3 GHz bands.

For purposes of this operation, O3b will transmit signals via the Orbit 2.2m Terminal to the O3b satellite system in the 27.6-28.4 GHz band and receive in the 17.8-18.6 GHz band. Consistent with its application, O3b will notify U.S.-authorized co-channel Ka-band satellite operators seven days prior to transmitting in this band. O3b will also submit a finalized coordination report to the Commission prior to transmitting in the 27.6-28.35 GHz band.

Please direct any questions to the undersigned.

Sincerely,

Suzanne Malloy
