Re: O3b Limited  
OET File No. 0104-EX-CR-2017  
Call Sign: WH2XRC

This document notifies the Office of Engineering and Technology (“OET”) that O3b Limited (“O3b”) will begin operating a fixed earth station terminal in Doral, Florida starting on June 16, 2017. The terminal will transmit and receive signals to and from the O3b satellite system pursuant to O3b’s grant issued by OET under the above referenced file number and call sign.

O3b will operate an Orbit AL-7103-Ka 1.2 meter terminal (“Orbit 1.2m Terminal”) at the below coordinates:

025° 48’ 23.328” N 080° 20’ 43.044” W

The OET grant authorizes O3b to operate up to 10 Orbit 1.2 meter terminals in the CONUS, Hawaii, Puerto Rico, and the U.S. Virgin Islands and to transmit in the 27.6-28.4 and 28.6-29.1 GHz bands and to receive in the 17.8-18.6 and 18.8-19.3 GHz bands.

For purposes of this operation, O3b will transmit and receive signals via the Orbit 1.2m Terminal to and from the O3b satellite system in the bands authorized by the above referenced license. Consistent with its application, O3b will notify U.S. authorized co-channel Ka-band satellite operators seven days prior to transmitting in this band. O3b will also post a coordination report to the OET website prior to transmitting in the 27.6-28.35 GHz band.

Please direct any questions to the undersigned.

Sincerely,

---
