Re: Request for Extension and Modification of Special  
Temporary Authorization (File No. S-1200-EX-93,  
New York, New York)

---

Dear Sir or Madam:

I am writing on behalf of Omnipoint Corporation ("Omnipoint") to request that the Commission (i) extend until July 31, 1994, Omnipoint's Special Temporary Authorization to operate spread spectrum wireless communications equipment in and around New York, New York and (ii) modify the STA to increase the maximum power of its base stations to 100 watts EIRP.

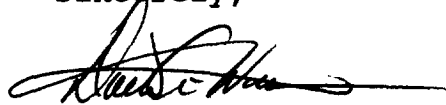

On October 22, 1993, the Commission concluded that its PCS licensees should be permitted to operate at power levels up to 100 watts EIRP. Amendment to the Commission's Rules to Establish New Personal Communications Services, FCC 93-45, at 29 (adopting new Section 99.231) (released Oct. 22, 1993). Omnipoint requires the extension to continue testing its 1850-2200 MHz PCS equipment under the conditions prevailing in New York City at the original power levels and to extend its tests to the higher power levels contemplated by the Commission.
