Message:

I added location coordinates as requested. I also removed the request for airborne operations from this application and intend to submit that separately. Also, I would like to delete the following frequencies from this application: 746-756, 777-787, 791-821, 832-862, 1710-1785, 1805-1880, 2500-2570, and 2620-2690. I intend to submit a separate application for the NTIA frequencies and intend to handle the frequencies involving the public safety bureau on an STA basis.
