

Government Contract Exhibit

This experimental license request is associated with fulfilling a contract with the SOCOM agency.

The contract involves providing a Mobile Cellular Network.

The contract number is HC1047-12-D-4005-VC02.

The activities involve staging and pre-testing cellular equipment prior to delivery to the government agency. All testing will be done at very low power to avoid interference and is to validate that the systems have been configured correctly and are functioning properly.
