

FCC Attachment
Form 442
File: 0083-EX-ML-2010
February 17, 2010

Request for expedited review and grant:

This request is for expedited review and grant of the UHF licenses described in Form 442 for 0083-EX-ML-2010.

We allowed the original UHF licenses under 0042-EX-ML-2008 in July of 2009 since we thought the required experimental testing was completed. However, we were notified last week that additional testing is now required.

Thus, we are asking that the original UHF licenses under 0042-EX-ML-2008 be immediately reinstated. However, for testing completeness, we have added one UHF frequency to the request.

This NAVAIR and SOCCOM testing of the Psyops transmitting equipment under military contract number N65236-07-D-7878 is required for National Security reasons during the middle of March, 2010.

Please notify regarding the process and reissuance.
