Hi Jeanette,

The attached file is a response for EMC that IB requested.

Thanks,
Leann

Subject: EMC Analysis 0240-EX-CN-2018; 0252-EX-CN-2018; 0255-EX-CN-2018,

EMC Analysis has been requested by FCC OET for these 3 licenses, which comprise the Virginia Cubesat Constellation, or VCC. These are requests 42461, 42745, and 43627.

An analysis covering the FCC requests for EMC analysis on all 3 of these has been conducted. We have completed coordination, and obtained concurrences of no interference, with NOAA, the National Radio Quiet Zone, and GHGSat Inc. The analysis and the coordination are described in the attached report.

Our license deadline for integration is close upon us - we ask that if there are no other concerns, the licenses be issued.

Thank you for your consideration.

Mike Miller
