Re: Experimental Radio Services Application Fee for the 50 Khz
Channel/File No. 0214-EX-PL-1999

Dear Mr. Huie:

Per our discussion, enclosed please find Orbital Communication Corporation's ("Orbcomm") completed, revised Form 442 application for an experimental license covering the 50 KHz channel centered on 150.025 MHz. Please note that this Form 442 replaces the Orbcomm experimental license application currently on file with the FCC that is under the file number 0214-EX-PL-1999. At present, Orbcomm runs four gateway earth stations, but would like to add the 150.025 MHz frequency to these stations' authorizations.

Should you have any questions or comments about Orbcomm's Form 442 or anything else contained herein, please feel free to contact me at (202) 371-9100. Thank you in advance for your attention to this matter.

Sincerely,

Richard T. White, Jr.

Encls.
