Regarding the request for info:

"Please verify the GPS Networking Link Budget Calculation in accordance with Section 8.3.27 of the NTIA Manual."

Please explain what you are needing. The GPS Networking link budget worksheet was provided with each file application.

Each site's link budget was calculated using the closest wall to the transmitting antenna thus providing the power 100 feet beyond the building.

Are you needing the GPS Networking link budget spreadsheet, provided by GPS Networking, with the actual formulas that created the worksheet?

Please advise.

Thank you,
