

Modification of Call Sign WG2XEE

Panasonic Avionics Company ("Panasonic") respectfully requests the addition of an additional frequency band to Call Sign WG2XEE at each of the five (5) authorized test sites: 2400-2497 MHz. Although not required for the modification application, Panasonic will test within the 2400-2497 MHz band in the following three 1 MHz frequencies: 2412 MHz, 2437 MHz, and 2462 MHz.
