Subject: Additional Information Request

Message:

We are very concerned about the possibility of interference to critical public safety communications given the: 1) relatively high power of the proposed operation, 2) proposal to operate on the uplink segment of the 700 MHz and 800 MHz bands, and 3) proximity to the operating area of numerous public safety agencies (including FirstNet).

Please inform us if you willing to remove the 791-811 MHz band request from your application.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of March 23, 2021 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
