Subject: Additional Information Request

---

Message:

Dear Mr. Sangani,

In response to your email of June 25, requesting clarification regarding the frequency 800-821 MHz with emission designator 10M0F9W, we would like to drop this frequency from our application to facilitate further processing. Please let us know if there are further items that need to be addressed.

Best Regards,  
Michael Saji  
Parallel Wireless, Inc.
