Subject: Additional Information Request

---

Message:

Chris,

This is regarding your request for new conventional license FLN 0375-EX-2019. Please file a modification to the already approved 0898-EX-CN-2018 call sign WJ2XWT. You should be able to add additional antenna with the same Fort Collins, CO geographical coordinates with your frequency request with the higher ERP value. In the new antenna page, you can change your radius of operation to reflect the 161km request. Also, you can additional antenna to the mod to the 0898-EX-CN-2018 and merge the frequency request that you made in 0390-EX-CN-2019 to reflect your higher ERP. We don't want to create multiple Callsigns for the same location when that could easily be addressed via a modification request.

Please let me know if you have any questions. Please inform me when you file the mod.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 15, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
