Subject: File Num#0623-EX-ST-2019 reminder on FAA pre-coordination data request

---

Message:

There is no FAA coordination necessary for this application as amended. The coordination that would have been required for use of the center frequency 1372 MHz was rendered moot by an amendment filed on or about April 16, 2019 (see response to reference number 47198, filed April 16, 2019) deleting that channel from the application for STA.

Please process this application as soon as possible since it was filed April 4 and specified a start date of April 29, 2019.

Thank you very much.
