

Persistent Systems, LLC
Request for Grant of Special Temporary Authority
File No. 1810-EX-ST-2018

NARRATIVE EXPLANATION OF OPERATION

Persistent Systems, LLC requests a grant of special temporary authorization for terrestrial-only testing of a mobile networking (MANET) system to fulfill a contract for the United States Air Force at four locations at and near Malmstrom Air Force Base in Montana. It is urgent to conduct point-to-point testing of embedded modules utilizing C-band embedded antennas. The antennas will be directional with 23 dB gain. The center frequency at each location will be 4550 MHz with a 20 megahertz occupied bandwidth. Two of the four locations specified herein are under the control of the United States Air Force and are used with permission.

Throughout the testing period, complete shutdown of all antennas can be accomplished immediately.

Should any interference be reported, all testing and demonstrations will cease immediately and will not resume unless and until all such interference is resolved to the reasonable satisfaction of the complainant.

The stop buzzer contact for this operation is Mr. Matt Buhler, whose mobile number is 646-627-8174. Other questions should be directed to undersigned communications counsel, who can be reached as follows:
