Subject: Withdrawal of application

Dear Mr. Huie,

As we discussed on the telephone, The Planetary Society would like to withdraw its application STA file number 0480-EX-ST-2001. The application involves the use of a NASA antenna and they will handle the permission to transmit and receive.

Thank you very much for your help and consideration of this application. It is too bad it took three months to find out about this jurisdiction issue; I hope NASA will be able to expedite their considerations from here on.

Best wishes,

Louis Friedman

Dr. Louis Friedman
Executive Director, The Planetary Society
