Subject: Additional Information Request

---

Message:

Program Experimental License is for the location authorization only. In this case it would be your specific building. The area has to be owned and under the control of Portland State University. The area can't belong to nearby commercial businesses. You can specify that you're requesting multiple building owned and operated by Portland State University and draw your GIS Map accordingly.

The technical parameters for individual experiments must be submitted to the FCC Notification webpage after your location license is granted. Experiments may proceed only if there are no objections after the necessary waiting period. The following link is for the experiment Notification system registration website to open an account and to create experiments: <https://apps2.fcc.gov/ELSExperiments/pages/login.htm>  
In your case you have to submit each experiment prior at least 14 days prior and within the authorized location only.

I shall email you the ELS Web Application User guide that has information.

Let me know you want to proceed based on the scope of your experiment.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 12, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at <https://apps.fcc.gov/oetcf/els/index.cfm> by clicking on the "Reply to Correspondence" hyperlink.
