

1/3/2020

To Whom It May Concern:

This is to certify that:

Quantum Wireless deploys and manages radio frequency equipment.

The RF experimentation will be conducted by following a strict Test Plan defined and approved by Quantum Wireless in a controlled environment.

Quantum Wireless will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

Quantum Wireless has extensive RF experience and expertise deploying RF networks and has an experienced RF engineer on permanent staff.

For the above reasons, I believe Quantum Wireless meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

Steven G. Bernd

Manager, Engineering and Operations
