Dear Mr. Ghaffari

Thank you for your e-mail. I have alot of trouble with your website trying to make the required changes and initially we were looking for nationwide, but now we have discovered that this can be specific to the state of New York and New Jersey. I tried to edit and make these changes on the site but was unable to do this easily. I used to get help doing this from Mr. Carl Huie, however he is now retired I understand.

The 50mW is the output power is ERP.

I hope this helps
 Allen
