RMT status on STA License

I received a phone call from (IRAC / FCC) reference the two STA's. file numbers 0301-EX-ST-2005 and 0306-EX-ST-2005

The Directional CDL was approved on 08-15-2005 and the Omni CDL was rejected. Reason, Government band not allowed to use location USA. They may grant us pacific station locations.

Please supply me with pacific station locations and North/L and West/L. on 0301-EX-ST-2005

If a need to use Capri 2, Directional CDL and Omni CDL on Military Ranges please inform the Government Military Spectrum Manager of that range during your coordination.

Thanks
