Subj: License Application (Form 442)
Experimental - INMARSAT SATCOM

Request is made for issuance of a Station License to operate Inmarsat Approved Ship Earth Stations at our facility in Seattle, Washington.

With the approach of the new Global Maritime Distress and Safety System (GMDSS), we are providing more maintenance/operator training as well as sales support for our satellite communications product line. The purpose of this station will be solely for providing technical maintenance training and support as well as operator training for Inmarsat Type Approved Shipboard Terminal Equipment sold and serviced by Raytheon Marine Company. This training will provide our customers with not only well qualified service but also knowledgeable operators who are thoroughly competent in the proper usage of the Satellite Communication Systems in support of the new SOLAS Rules defining GMDSS.

STATION LOCATION:

Raytheon Marine Company
Holiday Inn (RMC Training Facility)
700 Elm Street
Manchester, New Hampshire
03101

LAT 42° 59' 20" N
LON 71° 21' 50" W

Any questions relating to the attached application should be referred to George Kimball, Raytheon Marine Company, 46 River Road, Hudson, New Hampshire 03051-5242 at phone number 603-881-4715.

Very truly yours,
