To Operate in the 2200-2290 MHz Telemetry
Bands to Provide Film Coverage in New Orleans, Louisiana.

ATTN.: Microwave Branch

RF Film, Inc hereby requests Special Temporary Authority (STA) operating in the 2200-2290Mhz Telemetry pursuant to Section 21.25 of the Commission's Rules. RF Film requests that the Commission grant it temporary authority to operate on the frequency centered at 2211MHz with a 16MHz bandwidth commencing May 01, 2014 with Intermittent Usage and ceasing operation on June 29, 2014. As explained below, RF Film, Inc is filing an STA request for the filming of a feature length film "Terminator 5" to be held in New Orleans, Louisiana. RF Film submits that there are extraordinary circumstances warranting a grant of the STA request.

T5 Productions, LLC has contracted RF Film, Inc to provide the necessary microwave for the filming of this Feature Film. Due to the extreme frequency congestion in the New Orleans area, coupled with the added congestion from traditional Television and News coverage of the special event, RF Film requests the use of channels in the 2200 - 2290 MHz Telemetry Band.

RF Film, Inc certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.2GHz band would serve the public interest by enabling RF Film, Inc to supply the requested remote video coverage for this Filming. The proposed service would enhance Filming of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Filmmakers. RF Film, Inc is in the process of obtaining the consent of the relevant frequency coordinators for this project.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
