To Operate in the 1435-1525MHz and 2360 -2390MHz Telemetry Bands to Provide Television Coverage in Cleveland, Ohio.

ATTN.: Microwave Branch

RF Film, Inc. hereby requests Special Temporary Authority (STA) to operate in the 1435-1525MHz and 2360-2390MHz telemetry bands pursuant to Section 21.25 of the Commission's Rules. RF Film, Inc. requests that the Commission grant it temporary authority to operate on the frequency centered on 1445MHz with a 16MHz bandwidth. Additionally, RF Film, Inc., requests authority to operate on the frequencies centered on 2364MHz, 2374MHz and 2384MHz with an 8MHz bandwidth from May 13, 2016 with intermittent usage and ceasing operation on June 13, 2016. As explained below, RF Film, Inc. is filing an STA request for the shooting of a Universal Pictures feature film currently titled "Fast & Furious 8" shooting in Cleveland, Ohio. RF Film, Inc. submits that there are extraordinary circumstances warranting a grant of the STA request.

One Race Films has contracted RF Film, Inc. to provide the necessary microwave for the filming of this movie. Due to the extreme frequency congestion in the Cleveland area, coupled with the added congestion from traditional Television and News coverage of special events, RF Film requests the use of channels in the 1435-1525MHz and 2360 - 2390 MHz Telemetry Bands.

RF Film, Inc. certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 1.4GHz and 2.3GHz bands would serve the public interest by enabling RF Film, Inc to supply the requested remote video coverage for this event. The proposed service would enhance filming of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the production company. RF Film, Inc., is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
