Message:

From Benham Ghaffari...

The AFTRCC coordination letter is authorized for frequency band 2368-2382 MHz, while you are requesting for wider bands (2360-2376 MHz and 2376-2390 MHz). Either re-coordinates with AFTRCC or adjust the frequencies as they're shown on the coordination letter.

The AFTRCC coordination is for two channels with the center frequencies of 2368.0MHz (16M00D7W) and 2382.0MHz (16M00D7W). If this is not how it is perceived I can amend the application appropriately.
