

July 7, 2021

RF Film Inc. has been contracted to provide 1 wireless RF link for an RF hand held camera for ESPN College Football ("prime game") pre-game show. The single location will be chosen ad hoc last minute in most cases, requiring a request to cover the top teams venues for the season. This signal will be a 100mW COFDM video signal transmitted no more than 6' height inside each stadium. RF Film requests the commission grant 2295MHz at 8MHz bandwidth for the following locations in order to provide this service from 08/20/2021 – 01/10/22 with intermittent game day transmission.

Thank you,
 Danny Reichert
 Frequency Coordinator
