In re Application of

RF Film, Inc.  
10500 Airpark Way  
Unit M-3  
Pacoima, CA 91331

To operate in the 1435 – 1525 MHz band and the 2360 - 2390 MHz Telemetry Band in Atlanta GA.

ATTN.: Microwave Branch

RF Film, Inc. hereby requests Special Temporary Authority (STA) to operate in the 1435-1525 MHz and the 2360 - 2390 MHz telemetry band, pursuant to Section 21.25 of the Commission's Rules. RF Film, Inc. requests that the Commission grant it temporary authority to operate on the frequency centered on **1476MHz and 2368MHz with a 16MHz bandwidth and 2384MHz with a 8MHz bandwidth** from December 4, 2017 with intermittent usage and ceasing operation on January 3, 2018. As explained below, RF Film, Inc. is filing an STA request for the shooting a *L.O.Z. Production film in Atlanta Georgia*. RF Film, Inc. submits that there are extraordinary circumstances warranting a grant of the STA request.

L.O.Z. Productions has contracted RF Film, Inc. to provide the necessary microwave for the shooting of *Cherry Blue*. Due to the extreme frequency congestion in the Atlanta Georgia area, coupled with the added congestion from traditional Television and News coverage of special events in the area, RF Film requests the use of 2 channels in the 2360-2390 MHz and 1 channel in the 1435 – 1525 MHz Telemetry Band.

RF Film, Inc. certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.3GHz and 1.4GHz band would serve the public interest by enabling RF Film, Inc. to supply the requested remote video coverage for this event. The proposed service would enhance filming of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the production company. RF Film, Inc., is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name: RF Film, Inc.  
Address: 10500 Airpark Way  
Unit M-3  
Pacoima CA 91331

Type and Manufacturer  
Of Equipment: Janteq

Power Output: 100mw

ERP: 200mW

Emission: 16M00D7W  
8M00D7W

Frequency: **2368.0000MHz, 16M00D7W @ 200mW TERRESTRIAL**  
**1476.0000MHz, 16M00D7W @ 200mW TERRESTRIAL**  
**2384.0000MHz, 8M00D7W @ 200mW TERRESTRIAL**

Area of Operation: 5 miles radius (8 km)

Coordinates: 33°45'26.17" N  
84°24'02.91" W

Antenna Height: 6' AGL

Antenna: 2.0dB Omni

Antenna Gain: 2.0dBi

Dates of Operation: December 4, 2017 through January 3, 2018  
(Intermittent Usage during this time Period)

RF Film, Inc. requests an STA to operate on the above-referenced frequency for a period not to exceed 60 days. No application for regular authorization will subsequently be filed.

RF Film, Inc. certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C § 853(a).
