SUBJECT: Government Project Description.

1. RLM Communications, Inc. is providing The United States Special Operations Command (USSOCOM) training, science, and technology support in the areas of Special Operations Research, Development, & Acquisition Command (SORDAC) through the Special Operations Forces Support Activity Contract (SOFSA) Contract vehicle. **Contract number H92254-16-C-0001**
2. RLM will be providing Design Testing (DT) and Operational Testing (OT) for a family of electronic systems which includes Cellular technology research and development activities.

The testing activities will take place at RLM Communications, Inc at 1027 East Manchester Road. These activities will occur many times over the course of the contract to support USSOCOM.

The nature of the activity will include fixed antenna configurations, reliability testing, and experimental software testing.

3. A commercially available type accepted cellular transmitter node will be utilized which provides automatic-de-confliction with primary radio services. Testing periods will be brief in nature reducing potential interference.
4. The systems being developed, tested, and delivered will span a period of five years which includes configuration management, potential system upgrades, testing, evaluation, and delivery requirements including testing and training.
5. The designated contacts for immediate and emergency transmitter termination are the following:
 - a. Nick Brooks (PRIMARY)
 - i. OFFICE and TESTING LOCATION (910) 495-7425
 - ii. Mobile (910)-489-1762
 - iii. 1027 East Manchester Road, Spring Lake, NC 28376
 - b. Rodney Graves (SECONDARY)
 - i. OFFICE and TESTING LOCATION (910) 495-7614
 - ii. Mobile (910) 308-9297
 - iii. 1027 East Manchester Road, Spring Lake, NC 28390
