

# FAA Concurrence of Record TRK 200940, Project: TACTICALENGAGEMENT SIMULATION KENYA (TESIK)

Cold start #1 at ~3:30pm Thursday deck  
Dear Gerald Lucha,

The FAA Spectrum Engineering Services has completed the review of your  
Frequency Coordination Request.

TRK 200940 is assigned an FAA Coordination number NG T200919 that indicates  
FAA's coordination that may or may not include operational limits/conditions  
as part of the requirement for FAA concurrence. The FAA Spectrum Engineering  
Services has provided the following comments:

COMMENTS: THE FAA CONCURS WITH THE UNDERSTANDING THAT THIS IS A ONE-TIME TEST  
FOR PRODUCT COMPLETION.

Please note that this concurrence does not constitute authority to transmit.  
Your authority to transmit must be obtained from the FCC.

Please provide this concurrence notice to the FCC as part of your frequency  
application, to demonstrate completion of the FAA coordination process. The  
FAA Coordination number is only valid until 6/13/2021; if you need an  
extension, please submit an inquiry via WebFCR .

The attached file contains a Card 3 format with all technical and operational  
parameters; operations are required to be contained within these parameters  
for the FAA's concurrence to remain valid. If any of these parameters change,  
the license to transmit shall be re-coordinated with the FAA and updated with  
the FCC. A document that explains each field of the Card 3 format in plain  
text is attached.

The following Revision Table outlines key parameters of this coordination:

Attribute	Record	Parameter
Serial Number	NG T200919	
Frequency	M1350.0000	
Upper Frequency	M1390.0000	
City	BOISE	
State	ID	
Transmitter Radius	0005	
Transmitter Latitude	431830.00N	
Transmitter Longitude	1161036.00W	
Antenna Height	0030	
Receiver Latitude	431830.00N	
Receiver Longitude	1161036.00W	
Antenna Type	COLLINEAR	
Flight Level	000	

Best regards,

FAA Spectrum Engineering Services
