Subject: File Num#0434-EX-CN-2021 reminder on FAA pre-coordination data request

Message:

I had attached the FAA approval of this operation in Boise granted with the original STA. Since this was done as an extension of that operation in order to complete our testing which had been delayed due to COVID issues and other delays of our suppliers, I thought the FAA prior coordination would still apply.

If you require a new coordination, we will start a new FAA process. Please let me know.
