

HDTL Experimental License Authorization Request

Purpose of Operation

Raytheon Network Centric Systems (NCS) has been developing a HDTL system that has a high throughput data level, to perform Line-of-sight mission for air or ground platforms. We want to experiment with this HDTL system that will include various war fighter missions.

HDTL Current application for experimental license;

- File Number: 0083-EX-PL-2009
- Class of Station: MO
- Station Locations: Fort Wayne, IN; Fullerton, CA; McKinney, TX; Marlborough, MA; St. Petersburg, FL
- Effective: TBD
- Expiration: TBD

Experimental Explanation

To provide a high throughput data level for various war fighter platforms. This system will perform Line-of-sight missions for air or ground platforms. This license will give us the demonstration a development capability for perfecting this system.
