Subject: FCC File No. 0737-EX-CN-2021

---

Message:

Mr. Ghaffari, Back when this application call sign WH2XWM was originally filed in 2015, Raytheon IIS would have used the 2013 version of the NTIA manual. That manual calls out 8.3.28 for GPS rerad for fixed devices. 8.3.29 was for land mobile. Please see exhibit 2 for the correct information.
