Subject: Raytheon FCC Experimental License - BlackSky Global LLC Point of Contact.
Attachments: WS9XJV Raytheon 1006-EX-ST-2021.pdf

Mr. Mauldin,

BlackSky Global LLC was recently notified of the experimental license granted to Raytheon by the FCC (File No. 1006-EX-ST-2021). Special Condition #11 requires Raytheon to notify BlackSky prior to operations in the 1575.42 MHz frequency band. The contact information the FCC included within the license for BlackSky is no longer valid. Instead, the following individual should be contacted:

Name: Tyler Bowen

Email: tbowen@blacksky.com

Phone: (206) 687-1909

Please also cc Regulatory@blacksky.com and Monitoring@blacksky.com as BlackSky maintains a rotating, on-call point of contact.

BlackSky will submit a copy of this email to the applicable Raytheon license file as well.

If you have any questions, please let me know.

Best,

Chalineé Tinaves
Counsel
