Re: License Updates for Various Raytheon Experimental Licenses  
Call Signs: See Table Below

Dear Ms. Hey:

In accordance with sections 1.65 of the Commission's rules and in accordance with the practice and procedure specified by the Office of Engineering and Technology on its website, <https://fjallfoss.fcc.gov/oetcf/els/misc/FccElsFAQ.cfm>, we are writing to the Office of Engineering and Technology to request that the Commission's records be updated to properly reflect the name and address of the entity that holds the referenced licenses. The call signs in table below should show "Raytheon IDS" as the entity that holds the license.

The first chart below indicates what the current entity name is, what the proper name should be, and the reason for the change. The policy of the Raytheon Spectrum Management Council requires that each of its business units to be responsible for the licenses that are used at their facilities. The underlying programs have moved from Raytheon NCS to Raytheon IDS. This name change is not the result of a corporate transaction, but merely the reassignment of responsibilities within an existing corporate structure. No actual or pro forma transfers of control have taken place. Because we will need to upload this letter the experimental licensing system, we also providing you the most recent file numbers and we are requesting that you provide us with the confirmation numbers that are missing.
