Re: Request to Change Licensee Name and FRN
Call Sign: WG2XAM

Dear Ms. Hey:

In accordance with sections 1.65 of the Commission's rules and in accordance with the practice and procedure specified by the Office of Engineering and Technology on its website, <https://fjallfoss.fcc.gov/oetcf/els/misc/FccElsFAQ.cfm>, we are writing to the Office of Engineering and Technology to request that the Commission's records be updated to properly reflect the name of the entity that holds the referenced license. The call sign WG2XAM, referenced above, on this letter should show "Raytheon IIS", short for Raytheon Intelligence, Information, and Services, as the entity which holds the license. The FRN should be changed to 0008553695.

The chart below indicates what the current entity name is and the reason for the change. The policy of the Raytheon Spectrum Management Council requires that each of its business units to be responsible for the licenses that are used at their facilities. The underlying program has moved from Raytheon Integrated Defense Systems to Raytheon IIS. This name change is not the result of a corporate transaction, but merely the reassignment of responsibilities within an existing corporate structure. No actual or pro forma transfers of control have taken place.

Call Sign	Current Licensee Name	Post-update Licensee Name, FRN	Reason for Change
WG2XAM	Raytheon Network Centric Systems	Raytheon IIS, 0008553695	Internal assignment of responsibility for license operation

This license is under the control of the Raytheon IIS business unit, where the spectrum management office is headed by Brian R. Kavalari, Spectrum Manager, Raytheon IIS, 6125 E. 21st, MS 42, Indianapolis, IN 46219 (317) 306-7793, brian_r_kavalari@raytheon.com. Mr. Kavalari is the contact representative on each of the licenses already.
